Carpooling Best Practices

Take these steps to help prevent the spread of COVID-19 when carpooling:

- WEAR a FACE COVERING in a shared vehicle
- Open windows for FRESH AIR or use OUTDOOR AIR for vents
- Follow HAND HYGIENE and COUGH/SNEEZE etiquette
- Passengers should HANDLE their own ITEMS
- LIMIT THE NUMBER of people and CLOSE CONTACT within vehicle
- CLEAN and DISINFECT surfaces often
- RIDE with the SAME PEOPLE to limit exposure
- Stay at least SIX FEET APART while waiting

If you are sick or had close contact with a person with COVID-19, stay home unless seeking medical care. For more information on how to stay safe at work, visit: www.lhsfna.org.
